FOSHO

Choose Life, For Sure!!
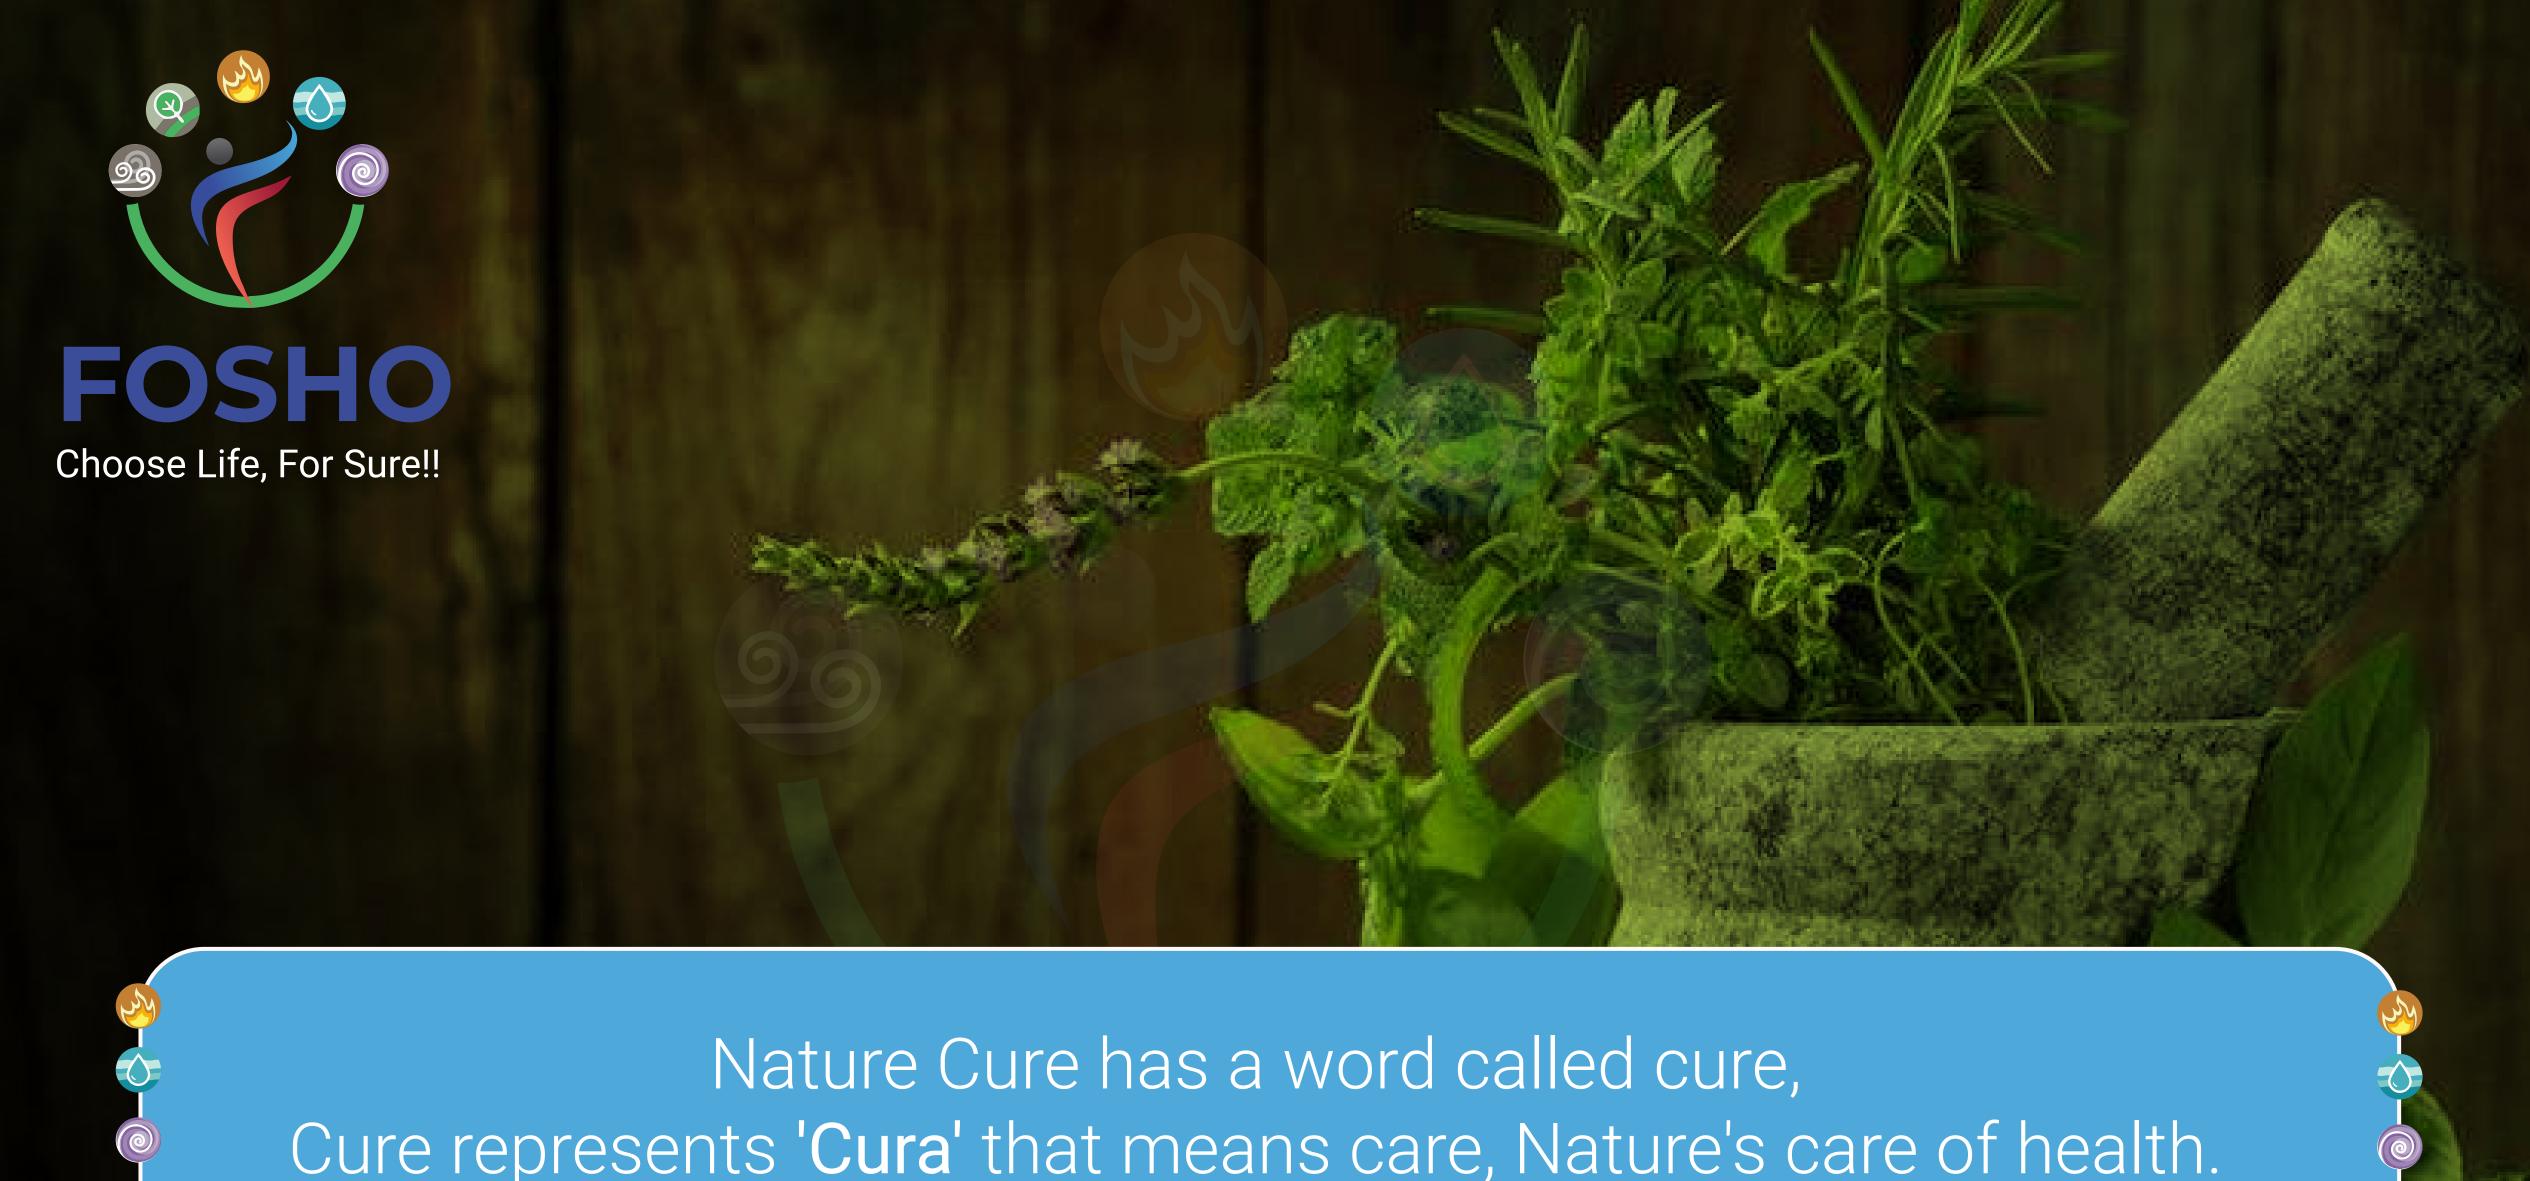

Nature Cure has a word called cure,
Cure represents 'Cura' that means care, Nature's care of health.
That's what we represent while saying (Nature cure)

Choose Life, For Sure!!

Nature Cure is a system
which relies on the creative intelligence of life to be able to deal with
all the problems of life. Every life is endowed with a Self repairing,
self maintaning and self improving mechanism.
Total reliance on this creative intelligence is Nature Cure.

The word 'pathy' indicates symptoms
when people adopt their treatment to remove the symptoms
it's pathological treatment, which we do not favour to remove
the cause of the illness as long as the cause persists.

The effect will also persist so we don't want to call it 'Naturopathy' beacause we don't want to give any attention to 'pathy'
